## Our Network

**PROVIDE** is a project initiated by the **reveal** network for educational professionals which is active in 27 European states.

In 2019 we offer a special incentive for innovative KA1 projects, learning concepts and high quality learning offers. You are invited, both as sending organisations, hosts and/or course providers, to apply for an award with your project. As in the past we will select the five most innovative CPD projects and honour them with an invitation to our European conference in Thessaloniki on the 26/27<sup>th</sup> September 2019 and a presentation of their concepts and success stories.

## KA1 Mobility in Education

International courses, job shadowing and other staff training opportunities are the cornerstones of European Continuous Professional Development (CPD) for educational staff within the Erasmus+ KA1 programme.

However, the KA1 programme is facing a number of challenges regarding accessibility of suitable courses and learning offers, quality control, competence validation and evidences of the impact of these CPD opportunities.

One of the biggest issues is a missing platform which couples existing offers for Continuing Professional Development in Europe with the demands from those institutes who participate in KA1 and their professionals.

## CPD Opportunities in Europe

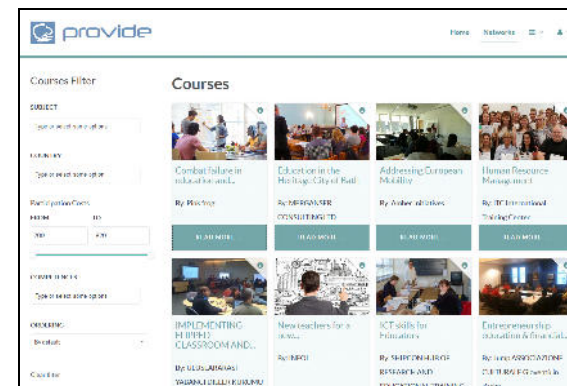

There are hundreds of CPD courses and job shadowing opportunities for educational professionals out there in Europe – but there is no central platform which provides information on these offers.

On the other hand, also the KA1 grant holders that want to send their professionals to a European training are not visible – neither as innovative institutes offering their staff CPD opportunities nor as organisations searching for high quality European CPD.

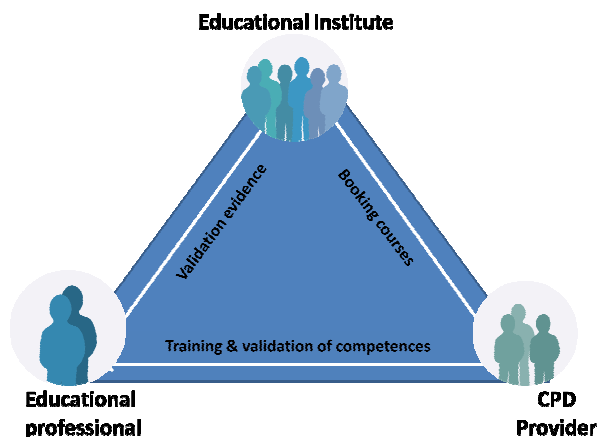

Finally, educational professionals also need a space to exchange experiences, to recommend high quality CPD opportunities and to present their success stories.

## Our Offer

This is the starting point of the REVEAL project that has developed the PROVIDE platform to close the gap and offer an attractive, quality-oriented instrument to match the three above mentioned stakeholders.

By July 2019 the PROVIDE prototype will be fully developed. It offers three main areas for

(Sending) Educational institutions searching for CPD opportunities

Providers of CPD Courses & hosts of job shadowing and other CPD offers

Educational professionals participating in KA1 mobility
